DOSING

With CBD crystal, it is important to start with a low dose and gradually increase the dose over a period of time (also known as titrate). CBD 990-Crystal is used for formulation to other forms of delivery or a 10mg microscop can be sourced for use orally. Crystal use is complex and should only be used under expert instruction or formulated by compounding chemist.

TITRATING DOSE

1. Use the dose recommended by your prescribing doctor. The dosing table below is an example of possible dosing. (Do not exceed the maximum recommendation of 300mg per day unless instructed to do so by your doctor).
2. Once the desired symptom control has been achieved, the optimal dose has been found.
3. Record in dosing diary.
