

What is a Medical Cannabis Consultation?

As Medicinal Cannabis is legal in Australia, we can prescribe our patients with this plant-based medicine, if we deem it to be a suitable treatment option. A Medical Cannabis Consultation at CDA Clinics gives patients the opportunity to meet with a specialised Doctor and Nurse to assess their condition and see if Medical Cannabis therapies are suitable for them. Patients need a referral and health summary from their GP prior to booking in a consultation.

The initial consultation with a CDA Doctor or Nurse will comprise of:

- Medical Condition Discussion
- Treatment History
- Current Medicines Review
- Product Selection
- TGA Application
- Information (provided to the patient)
- Customised treatment plan

After your consultation, you can have your plant-based medicine delivered direct to your local Pharmacy or securely shipped to you.
